Présentation de l'éditeur

Joseph Beuys and Italy focuses on an up to now little noted aspect. Beuys had a special relationship to Italy throughout his life: Here is where his most well known editions and last big installation, Palazzo Regale , were created. Here is where he felt at home and, for the Beuys the social reformer, his idea of social sculpture was again reflected in the culture, history, and lifestyle of the people. With around one hundred exhibits, drawings, works on paper, multiples, objects, as well as archival, film and audio material including numerous works never before presented in Germany the exhibition catalogue invites viewers along on a special journey to Italy. Biographie de l'auteur

The German-born artist Joseph Beuys, who lived from 1921 to 1986, was a painter, sculptor and performance artist, as well as a professor at the Art Academy in Dusseldorf. One of the most significant and influential artists of the twentieth century, he saw himself as the architect of a revolutionary type of poetry whose language arose from "poor" objects--from a strict reduction to the essential.

Marc Gundel is director of the Staedtische Museen Heilbronn.
