Razones Para La Anarquia Institute Professor & Professor of Linguistics (Emeritus) Noam Chomsky

Noam Chomsky is one of the most influential thinkers of the last half century. His attacks on capitalism, imperial arrogance, journalistic misinformation, and state coercion are well-known. *Razones para la anarquia* bring together a collection of essays which recovers the converging inheritances of anarcho-syndicalism, libertarian antiauthoritarian socialism and Marxism to draw the features of a subversive program based on collective wills. This book is the most recent and least cold chapter of his extraordinary intellectual adventure."
